RWY conditions in LSTO

As the runway could be wet and soft in LSTO, the runway will be checked by the CD some few days before the SNAC. Today, the runway is fine and dry.

In the extreme case that the RWY is not practicable, planes could be based in LSGN (or LSGY) as the last option before taking the decision of cancelling the SNAC 2021.

No taxiway is available on RWY 05 (due to holes and tracks damages during the wet spring and summer 2021). All taxi operations must be made on the RWY 05.

Low Level Permit

All UNL, EXC and SNFC pilots will need a valid low-level permit for 100 m AGL.

All ADV pilots need a valid low-level permit for 200 m AGL (or lower).

This can be obtained from FOCA.

SNAC Regulations

You will find the SNAC regulations on the SAA website under SAA regulations or here:

<https://www.saa.ch/regulations/>. You also be able to check out the CIVA Sporting Code, Section 6, Part 1, Power Aircraft. The SNAC regulations refer to this document in various places.

All participating pilots are supposed to know the regulations, *dura lex, sed lex*.

The Final Dinner is included in the 2021 Entry Fee for all participants and SNAC Staff. The Final Dinner is open to family and friends of SNAC 2021 Participants as well as SAA Members on simple registration (50.00 CHF pro person).
